

IPPOLITA

The style authority in fine jewelry

Cherish

Inspired by a culture-filled childhood in Florence, Italy, Ippolita formed a deep admiration for art and sculpture. From these influences, the Cherish Chain, her first-ever piece, was born. She handcrafted gold using imprints of her own figure to create a wearable sculpture. This Fall, an exploration of signature Cherish link sparks a new collection. Simple changes, a play on proportion and traces of diamonds, lend a contemporary feel to pieces symbolizing love & embrace.

Senso™

An intimate feel on your skin. The Softness of the feminine figure meets the sculpture surface of high-polished shapes, crafted with IPPOLITA's signature body-imprinting technique. Italian for the "senses", Senso™ represents pure sensuality.
